FOLDERIT DOCUMENT MANAGEMENT SYSTEM

QUOTATION- ON-PREMISES

SUPPORT, TRAINING & DEPLOYMENT REQUIREMENTS TABLE

CATEGORY	DETAILS
Support Coverage	Included for all Folderit-related technical issues.
Additional Support Costs	Issues caused by client infrastructure charged at €80/hour.
Training	€100 per session (~2 hours).
Typical Training Requirement	2 sessions: 1 for end users, 1 for administrators.
Deployment Timeline	Deployment completed within 4 weeks.
Custom Branding	Included (logo + color scheme).
Payment Method	Bank invoice.
Deployment Fee Payment Terms	50% upfront + 50% after successful deployment.
Subscription Payment Options	Monthly, quarterly, semi-annual, or annual (paid in advance).
Infrastructure Requirements	Strong IT team required + minimum 32 vCPU, 128 GB RAM, distributed across Ubuntu VMs (application, storage, logs, ops).

FOLDERIT DMS – ON-PREMISES QUOTATION

QUOTATION ITEM	DETAILS
Deployment Type	On-Premises
Central Storage	Any storage capacity available on client infrastructure
Number of Users	1 – 500 users (flat licensing)
Licensing Model	Enterprise License
Monthly Subscription Fee	**USD 2,500**
Annual Subscription Cost	USD 30,000 (2,500 × 12)
One-Time Deployment Fee	**USD 10,000**
Total First-Year Cost	USD **40,000** (30,000 + 10,000)

PAYMENT TERMS:

Payments are to be made based on bank invoices.

Deployment Cost: 50% payable in advance, and the remaining 50% upon completion of deployment.

Subscription Payments: Can be made monthly, quarterly, semi-annually, annually in advance

IMPLEMENTATION PLAN

STAGE	DETAILS
1. Deployment (4 Weeks)	Full on-premises deployment using client's infrastructure. Includes server configuration, Folderit application setup, and custom branding (logo & color scheme). Client responsibilities: DNS configuration + email setup (e.g., catchall mailbox for scan-to-email). Folderit will guide and collaborate with client's IT team.
2. Data Migration (1–2 Weeks)	Runs in parallel with testing to shorten overall timelines. Client must provide structured folder/file formats. Metadata (tags, document types, custom fields) must be submitted in Excel/CSV for accurate mapping.
3. Testing & Feedback (1 Week)	Client reviews system functionality after deployment & migration. Adjustments can be made based on feedback.
4. Training	Separate training for administrators and end users. Sessions may be recorded for future onboarding. Additional resources: tutorial videos, help articles. Ongoing technical support included.
5. Active Directory & Integrations	Assistance provided for EntraID (Active Directory) setup for user synchronization (if applicable).
6. Post-Go-Live Support (2 Weeks)	Two week hyper care support period after go live. Includes issue resolution, guidance, system adjustments.
Additional Note	After deployment, Folderit keeps the system operational. Issues caused by client infrastructure changes (server, network, OS) are charged separately at **€80 per hour**.
